November 12, 2002

**FLORIDA**: The forecast of avocados for certified shipments is continued at 1,050,100 bushels, the largest amount since the 1991-92 season when 1,111,000 bushels were shipped. If realized, it will be 18 percent more than was shipped last season.

Estimated shipments through October total 906,700 bushels, the highest amount for summer shipments on record. Fruit maturity is advanced with good demand.

Bearing acres (trees planted in 1998 and earlier) are estimated at 6,000 acres. This is only slightly more than the previous season's 5,900 acres.

**CALIFORNIA**: Estimated total shipments for the just completed 2001-02 season are 8,000,000 bushel equivalents. The forecast for the 2002-03 season is for 8,312,000 bushel equivalents, four percent more than last season but slightly less than the 2000-01 season.
